

[Draft e-mail for participant recruitment]

Dear —,

I am a member of a Morpho working group and we have created a survey as part of a research study titled “Evaluating the effectiveness of decision support tools to improve conservation outcomes for pollinators”. This work is funded by the National Center for Ecological Synthesis (NCEAS).

We are hoping that your organization would be willing to promote the survey via your email newsletter, social media or other channels to help us get a diverse group of participants.

Who should take the survey?

- Anyone who lives in California
- Anyone who grows plants in a garden, farm, or plot
- Anyone who would like to learn more about gardening to support wildlife and pollinators

This survey takes 30-minutes to complete, and here’s the link to complete it:

Please let me know if you are willing to disseminate this survey and/or if you have ideas for more places to publicize it.

Thank you,

Estimado/a —,

Soy miembro de un grupo de trabajo de Morpho y hemos creado una encuesta como parte de un estudio de investigación titulado “Evaluación de la eficacia de las herramientas de apoyo a la toma de decisiones para mejorar los resultados de conservación de los polinizadores”. Este trabajo está financiado por el Centro Nacional de Síntesis Ecológica (NCEAS).

Esperamos que su organización esté dispuesta a promover la encuesta a través de su boletín informativo por correo electrónico, redes sociales u otros canales para ayudarnos a conseguir un grupo diverso de participantes.

¿Quién debería participar en la encuesta?

- Cualquier persona que viva en California
- Cualquier persona que cultive plantas en un jardín, granja o parcela

- Cualquier persona que desee aprender más sobre jardinería para apoyar la vida silvestre y los polinizadores

Esta encuesta se completa en 30 minutos y aquí está el enlace para completarla:

Por favor, hágame saber si está dispuesto a difundir esta encuesta y/o si tiene ideas sobre otros lugares donde publicarla.

Gracias,
